OBJECTIVE

Results-driven Computer Science undergraduate with strong expertise in full-stack web development. Successfully solved over 1,500 coding challenges across multiple platforms, consistently delivering high-performance and optimized software solutions. Proficient in leveraging modern technologies to build scalable and efficient applications.

EDUCATION

Bachelor of Computer Science and Engineering, St. Joseph's College of Engineering Expected 2026
CGPA: 8.34

SKILLS

Programming Languages	Java, HTML, CSS, JavaScript
Frameworks & Libraries	React.js, Node.js, Express.js, Django
Database Management	MySQL, MongoDB
Soft Skills	Analytical Thinking, Team Collaboration, Adaptability and Quick Learning

EXPERIENCE

Software Development Trainee May 2025 - June 2025
MasTec Quadgen *Bangalore, Karnataka*

- Developed a full-stack productivity application using **Django** and **MySQL**, featuring **user authentication**, **leaderboard**, and **gamification**..
- Created a responsive user interface with **HTML**, **CSS**, and **JavaScript**, integrating dashboards for **user insights** and **progress tracking**.
- Implemented **site-blocking features** using browser extensions and engaging gamification elements to significantly enhance user productivity.

PROJECTS

CareerBridge (Ongoing) - *React.js, Node.js, Express.js, MongoDB*

Building a Full Stack Job Portal enabling job seekers to **apply for jobs**, upload resumes, and manage profiles. Developing a **recruiter** dashboard to post job openings, review applications, and manage applicants.

Hospital Management System - *HTML, CSS, Javascript*

Built a user-friendly interface for managing doctor-patient records and appointment scheduling. Implemented form validation and optimized state management for smoother operations.

WeatherApp - *HTML, CSS, Javascript*

Created a feature-rich weather application using an external API for real-time updates. Designed a responsive interface with React.js, enabling global city searches for live weather data.

CERTIFICATIONS

- Computer Networks - Cisco Networking Academy
- Database Management System - NPTEL
- Data Structures and Algorithms in Java - Infosys Springboard

ACHIEVEMENTS

- Solved over 1000 problems on **SkillRack**, showcasing advanced problem-solving expertise.
- Completed 400+ challenges on **LeetCode**, demonstrating strong command over algorithms and data structures..
