Job Title: Java Developer Intern
Location: Chennai, Work from Office
Duration: 12 Months
Eligibility: 3rd Year B.E./B.Tech/B.Sc./BCA students (Computer Science or related fields)
I**nternship Stipend:** 15k Per month (Upon successful completion of internship, truly based on the performance full-time offer would be given for a package upto 8 LPA)

About the Role:
We are seeking a passionate and driven Java Developer Intern to join our development team. This internship provides a great opportunity to gain hands-on experience in Java programming and backend development through real-time projects and expert mentorship.

Key Responsibilities:

- Write clean, efficient, and maintainable Java code
- Assist in developing and maintaining backend applications
- Support integration of APIs and third-party services
- Participate in debugging, testing, and optimizing code
- Collaborate with cross-functional teams and contribute to technical discussions

Required Skills:

- Strong understanding of Java fundamentals and OOP concepts
- Familiarity with frameworks like Spring or Hibernate is a plus
- Basic knowledge of databases (MySQL, PostgreSQL, etc.)
- Problem-solving mindset and eagerness to learn
- Good communication and teamwork skills

What You'll Gain:

- Practical experience in Java-based application development
- Exposure to real-world coding practices and tools
- Guidance from experienced software professionals
- Internship certificate and potential full-time opportunity

Note: We will also be doing a quarterly review to validate your performance which is subjected to the fulltime offer.
